WHY JEWELLERY INSURANCE?

Your favorite pieces of jewellery are more than valued possessions. They're reflections of who you are. Protecting them from theft, damage, mysterious disappearance, or loss is as natural and important as protecting anything of great value.

MORE THAN A MONETARY INVESTMENT

Consider everything that went into the jewellery purchase, whether it was by you or by the person who gave you the piece as a gift.

REAL LIFE COVERAGE

Your jewellery isn't ordinary, so don't settle for ordinary insurance. Standard homeowners policies may only provide **limited jewellery protection**, often excluding jewellery damage and loss. Deductibles may also be much higher.

HOW TO GET STARTED

STEP 1: Have your jewellery fully appraised at our store. Appraisals can be done while you wait, every Tuesday and Thursday mornings.

STEP 2: Present your professional appraisal to your insurance company and ask for a separate writer with full coverage. This will include theft, damage and loss.
